

IN THE SPECIFICATION

Please replace the paragraph beginning at page 24, line 22, with the following rewritten paragraph:

Here Fig. 1 is a figure showing the layout around the photoconductor in the image forming process of the present invention. This is identical to the ordinary image forming operation. In Fig. 1, the distance between the sensor and the photoconductor sensor "d," the diameter of the charging roller "D1," the diameter of the developing roller "D2," and the diameter of the transferring roller "D3," are illustrated.
